

XRY LOGICAL

A FAST, EFFICIENT AND SECURE METHOD TO EXTRACT MOBILE PHONE DATA

XRY LOGICAL IS A SOFTWARE BASED SOLUTION FOR ANY WINDOWS BASED PC, COMPLETE WITH THE NECESSARY HARDWARE FOR FORENSIC INVESTIGATIONS OF MOBILE DEVICES. XRY IS THE STANDARD IN MOBILE DEVICE FORENSICS AND THE FIRST CHOICE AMONG LAW ENFORCEMENT AGENCIES WORLDWIDE.

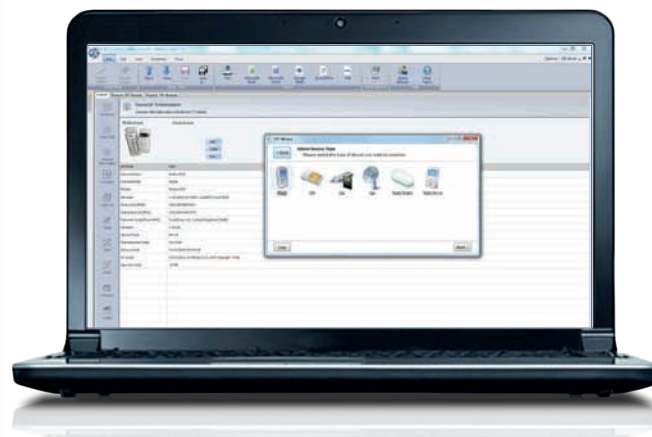

XRY Logical provides a intuitive and user friendly interface to analyse a wide range of mobile phones through a secure examination process to recover data in a forensically secure manner. The information gathered from the examined device is instantly available for review in a secure and traceable manner, ensuring its legal standing and credibility in a court of law.

XRY Logical software enables investigators to perform 'Logical' data acquisition. This forensic process is used to communicate with, and read the contents of, the device; which typically generates live information. The software's user interface is simple to navigate, with a user friendly

wizard designed to help guide you through the entire process from start to finish so you can immediately start to recover data with confidence.

With XRY, a tamper-proof report is created within minutes which can easily be customised to a user's needs, including references and a user's own branding as required. The generated report can be printed in its entirety, or selected data required by the investigators can be prepared. Using XRY's export function, users are afforded a wide range of functionality to facilitate further distribution and analysis of the data.

Our software is tested on every device we support and fully documented. With XRY's unique 'Device Manual' help file, investigators know exactly what information to expect from a device and just as importantly what you should not expect to recover. With the freedom to run on any Windows based computer; our results are always available immediately for review to ensure fast and efficient reporting.

INCLUDED IN THE XRY LOGICAL PACKAGE

- >> XRY Application software and licence key
- >> Briefcase with cable organiser
- >> XRY Communication unit with AC power connection cable
- >> XRY Logical mobile phone cable kit
- >> SIM id-Cloner device with 12 month licence
