

The de facto standard in mobile phone forensics

# .XRY CERTIFICATION

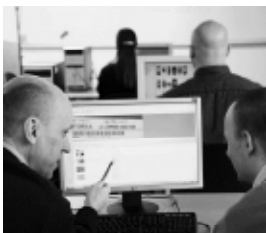

“Would recommend anyone starting out on mobile phones to do this course asap. Gives an easy to understand grounding.”

(.XRY, Stockholm, Nov. 2008)

“All subjects were clearly covered and the trainer’s enthusiasm for the subject is obvious. I learned a great deal during the course and will use everything covered. Many thanks.”

(.XRY, Oct. 2008)

**THE .XRY SYSTEM IS A POWERFUL TOOL FOR MOBILE PHONE FORENSICS – BUT WITH TRAINING YOU WILL BE MORE EFFICIENT AND CONFIDENT ABOUT THE RESULTS OF YOUR WORK.**

Do you know how to configure .XRY to view the many different types of data downloaded from phones, e.g. MMS messages, movies, Internet history?

Are you fully exploiting .XRY’s capabilities to deal with handsets where no SIM is present?

Do you need to burn an entire case to CD/DVD so that your work can be easily viewed by colleagues and other parties?

## WHAT KIND OF USER ARE YOU?

- Recently purchased one of our products?
- Currently using .XRY but never had any formal training?
- A self-taught, experienced phone examiner?

Whichever category you fit in to, our courses are carefully designed and updated regularly to ensure there’s something for all users.

## SIGN UP FOR A COURSE NOW AND YOU WILL:

- Learn how to maximise the potential of your .XRY systems on our practical, hands-on training courses.
- Be taught by highly skilled trainers and learn how to confidently demonstrate your competence in court as a certified user.
- Save your organisation time and money by learning how to conduct more efficient and effective investigations.

The de facto standard in mobile phone forensics

## .XRY CERTIFICATION

This two day course is intended to teach new or existing mobile phone examiners how to get the most out of the .XRY system and students will also receive training on SIM id-Cloner. After completing the course, students are certified to use .XRY.

### DAY 1

- Handsets and SIM cards
- Introduction to networks
- .XRY Product setup
- .XRY Handset and SIM extraction

### DAY 2

- Using SIM id-Cloner
- Viewing extracted data in .XRY
- Sharing .XRY data
- License management and getting help
- Review and test
